

BETTER DF – EXTENSION OF USE

Better DF is a 650 g/kg WDG formulation of chloridazon and has been registered for use on sugar beet, fodder beet and mangels under MAPP 16101.

The Chemicals Regulation Directorate (CRD) has recently granted extensions of use on the following minor crops (EAMU): outdoor bulb onion, garlic and shallot.

Details are listed in the table below:

CROPS	EAMU NUMBER	MAX.INDIVIDUAL DOSE KG PER HECTARE	MAX. TOTAL DOSE KG PER HECTARE	LATEST TIME APPLICATION
Outdoor crops of bulb onion, garlic and shallot	2014395	1.4	1.4	Up to and including second true leaf stage

When applying this product under the terms of this Extension of Authorisation, comply with any resistance guidance or restrictions stated on the product label.

Growers are advised to test a small area of crop prior to use.

Full information is available from the CRD website at
