Sipcam appoints Regulatory Affairs Manager

Robert Hend has been appointed Regulatory Affairs Manager at Sipcam UK, suppliers of a range of quality weed, insect and crop disease control products in the UK, as well as specialist fertilisers including microgranular Umoplast Super ZN.

Bob's responsibilities will include front-line communication with relevant authorities to maintain the company's existing product registrations and proactively develop and manage regulatory programs through submission to product launch.

With over 30 years experience in the agrochemical and specialty chemicals sector, Bob has previously worked for several global, research-based companies including American Cyanamid, Zeneca and Syngenta and brings with him strong knowledge of the crop protection sector.
