

MOHAWK

# MOHAWK CS

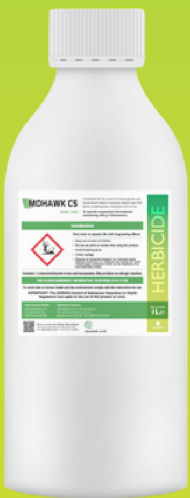

Capsule suspension containing 360g/L Clomazone

MOHAWK

**Herbicide for the control of annual grasses and broad-leaved weeds**

- Pre-emergence application in a wide range of crops including potato, oilseed rape, field beans, combining peas & sugar beet
- Control of annual meadow grass, black nightshade, cleavers, chickweed, groundsel, penny-cress, shepherd's purse, sowthistle, speedwell & wider spectrum
- Good compatibility with partnering pre-emergence herbicide products
