

**100% Seaweed (*Ascophyllum nodosum*) extract for
improved crop stress management**

Targets & Benefits:

- Mitigation of abiotic stress
- Enhance post-herbicide stress recovery
- Promotion of flowering & fruit sets
- Excellent tank-mix compatibility
- Suspension Concentrate
- Acidic pH
- Low sodium content
- Processed without chemical degradation

Composition:

- 100% *Ascophyllum nodosum*
- Natural green colour
- Dry matter >10%
- Organic matter >50g/L
- Density 1.05 +/- 0.5kg/L
- Acidic pH
- Low Na content (<0.5%)

**Abyss is a natural brown seaweed suspension concentrate
with acidic pH and low sodium content.**

Processed within 24 hours of harvest our seaweeds are double washed and inspected before going through a vacuum low temperature ultrafiltration which doesn't denature or damage the natural components, but ensures the base material is preserved.

Abyss is a registered trademark of Sipcam Oxon SpA
